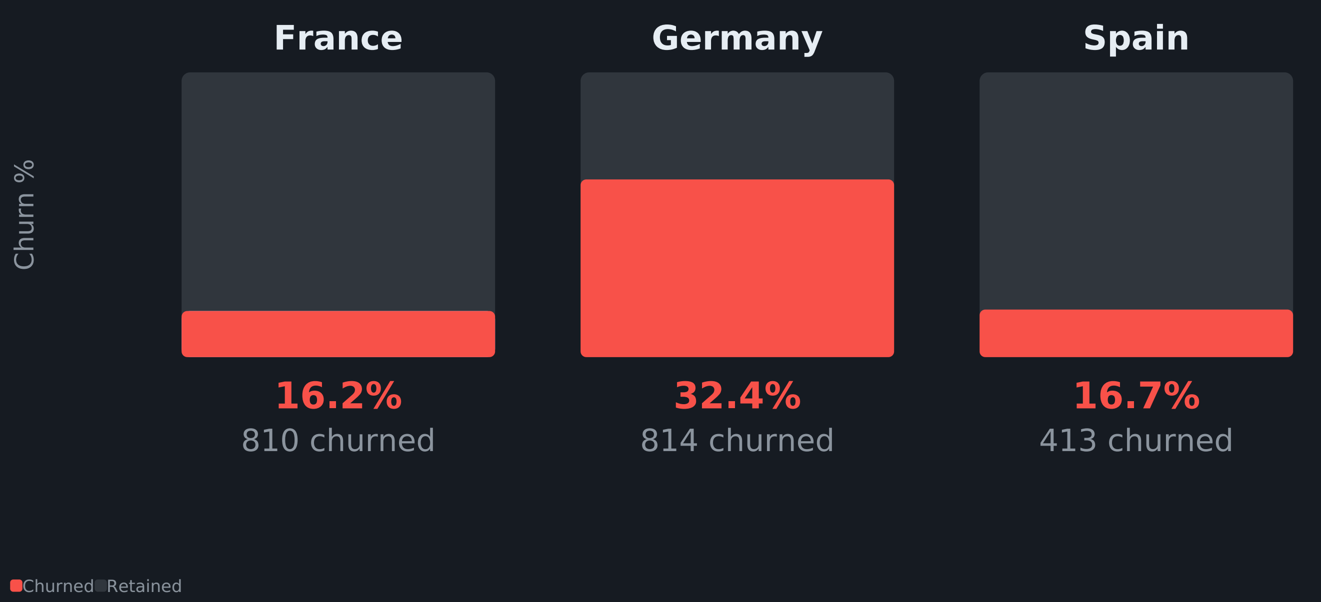
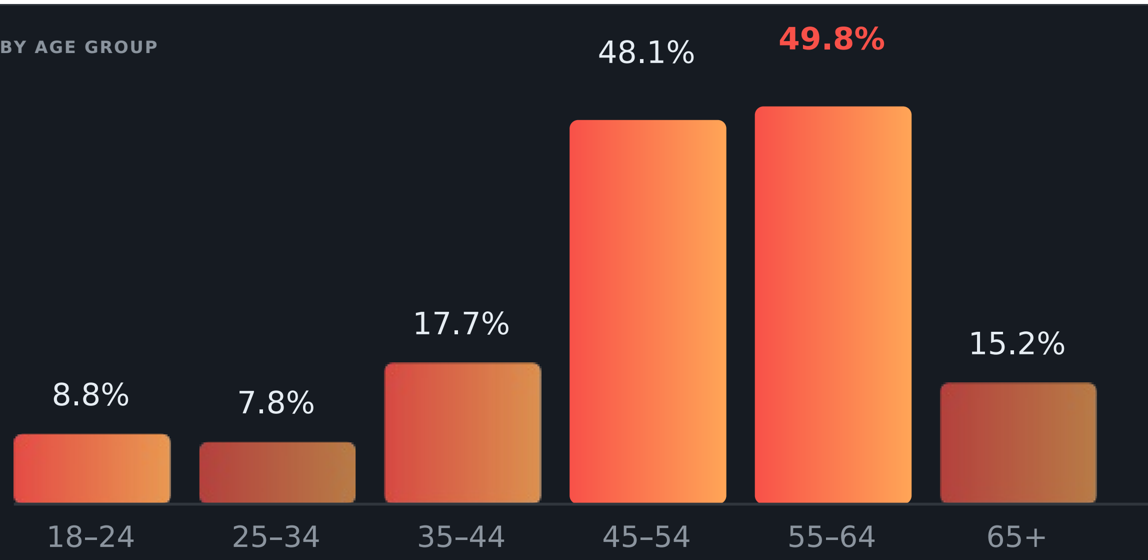
CHURN BY GEOGRAPHY



CHURN RATE BY AGE GROUP

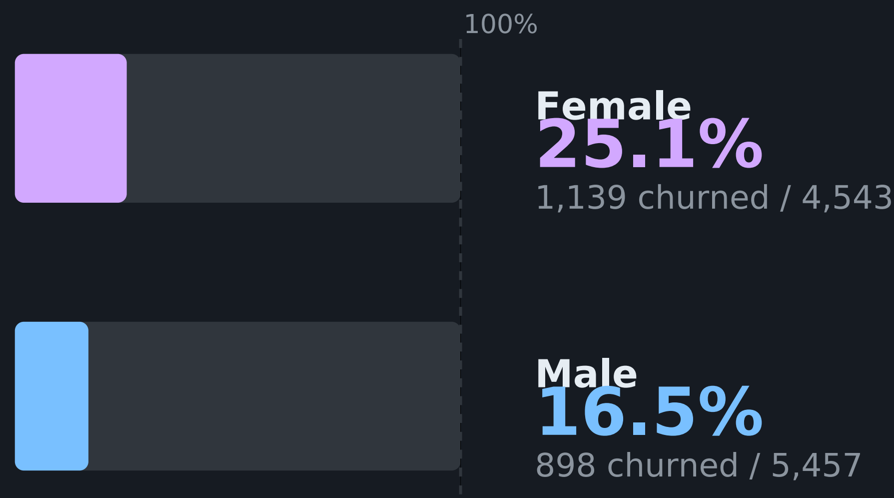


CHURN RATE BY TENURE (YEARS WITH BANK)

Customer Analysis

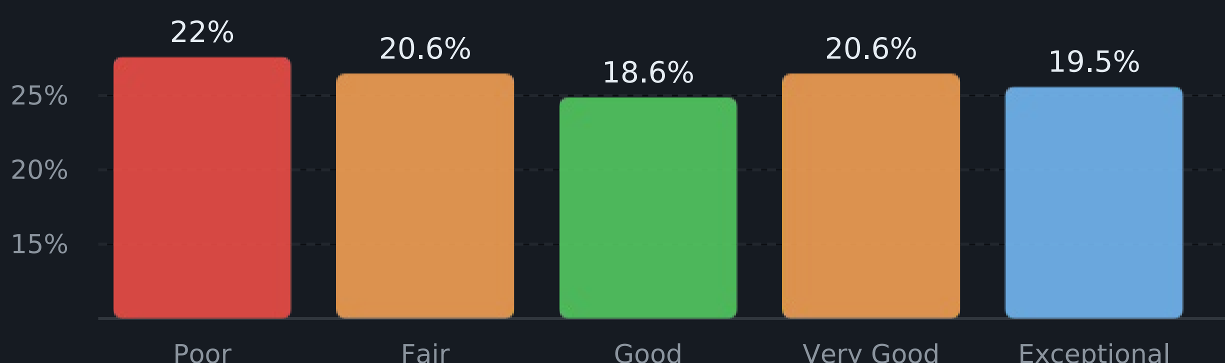
Churn patterns across demographic segments

CHURN BY GENDER



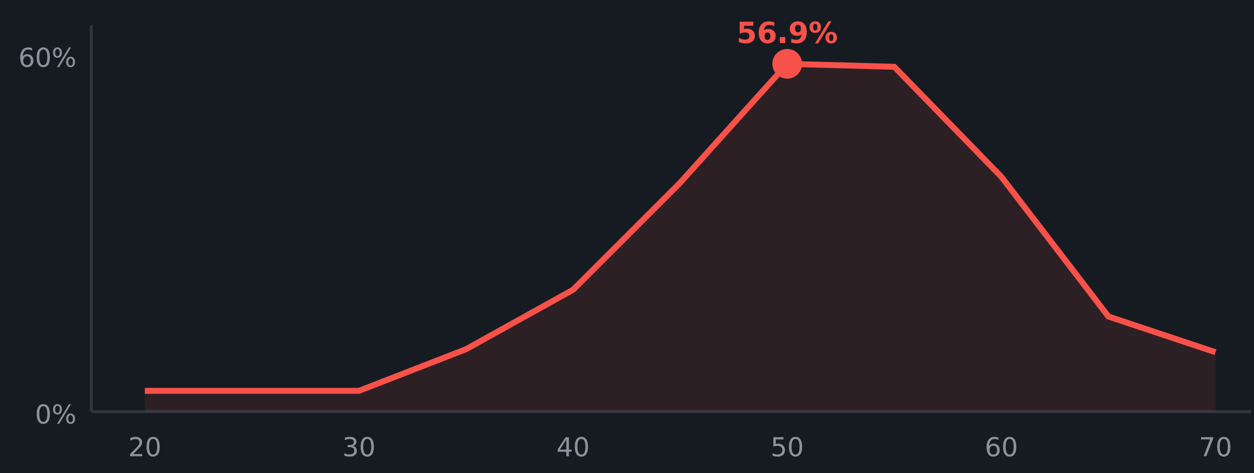
⚠ Women churn at **52% higher rate** than men

CHURN RATE BY CREDIT SCORE BAND



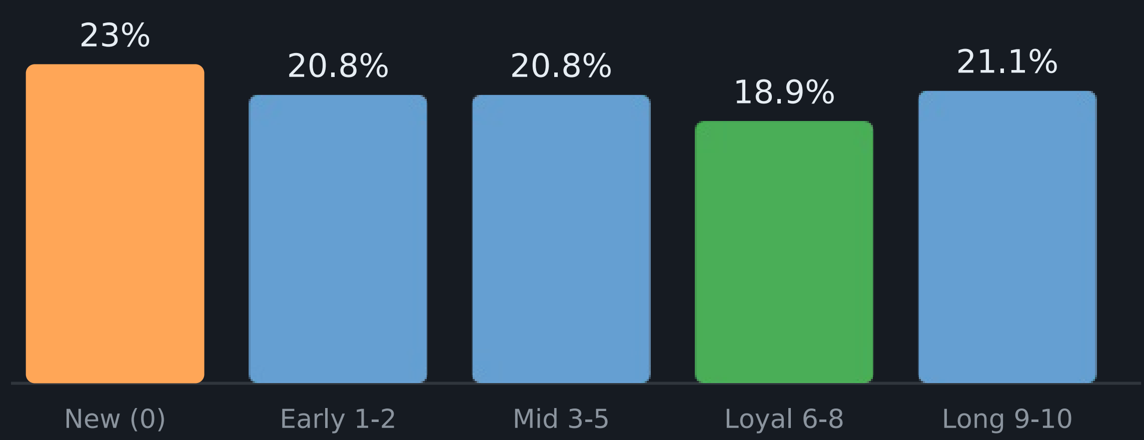
📊 Credit score has **weak correlation** with churn — other factors dominate

CHURN RATE BY AGE (5-YEAR BANDS)



⚠ Peak churn at ages **50–59 (54–57%)** — retirement planning triggers exits

CHURN RATE BY TENURE GROUP

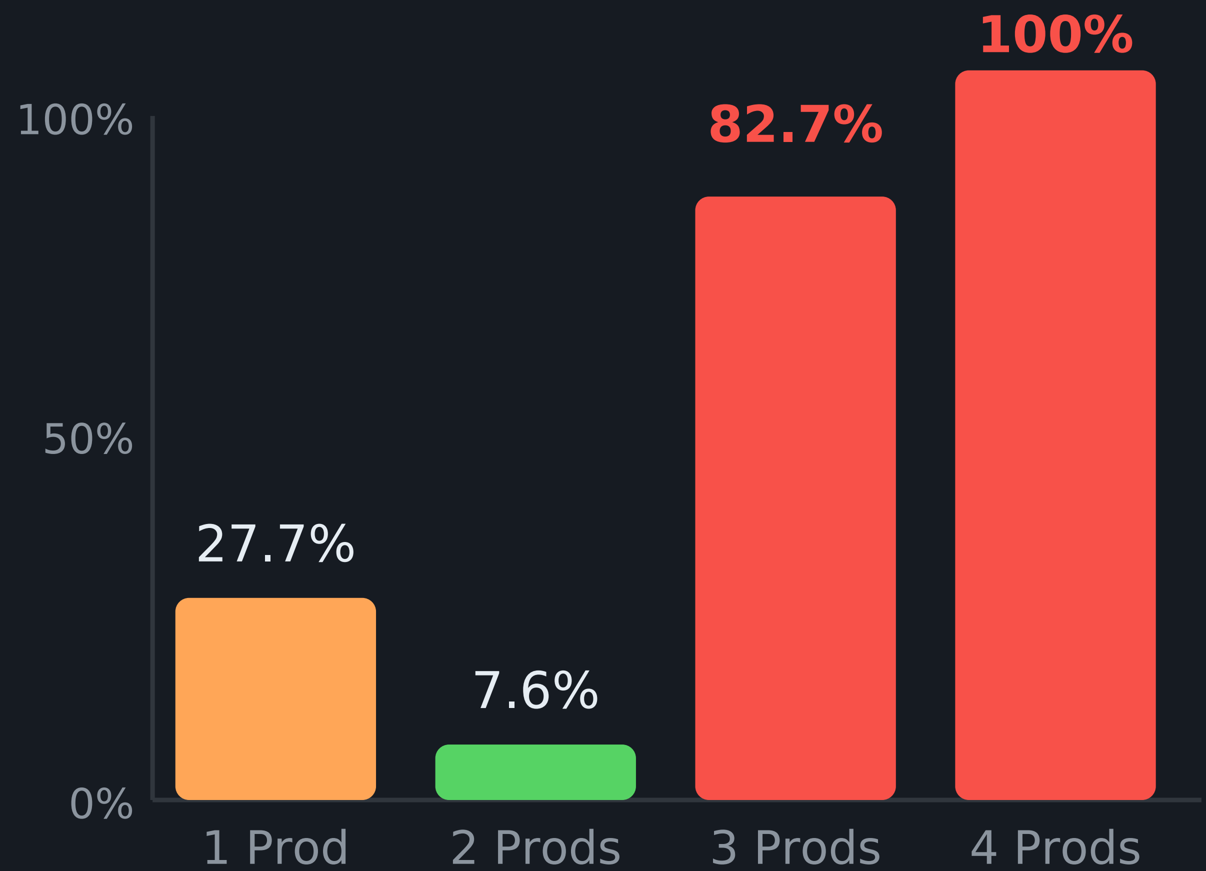


💡 Loyal customers (6-8 yrs) have **lowest churn (18.9%)** — invest in that cohort

Product Analysis

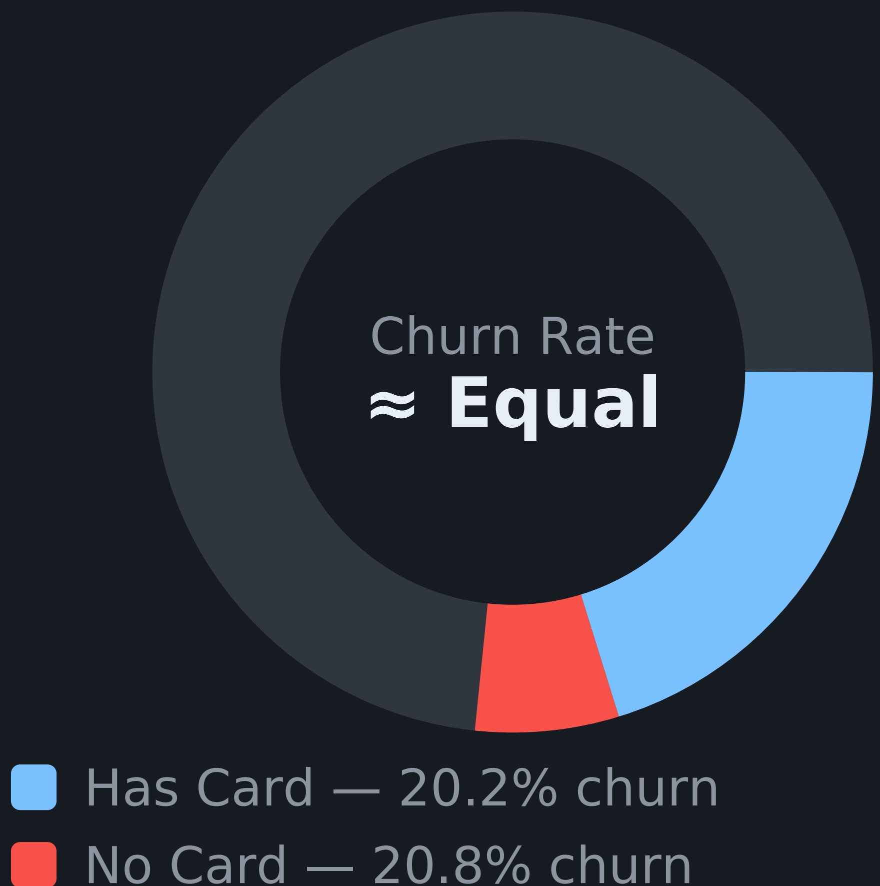
How product holdings and membership status relate to churn

CHURN BY NUMBER OF PRODUCTS



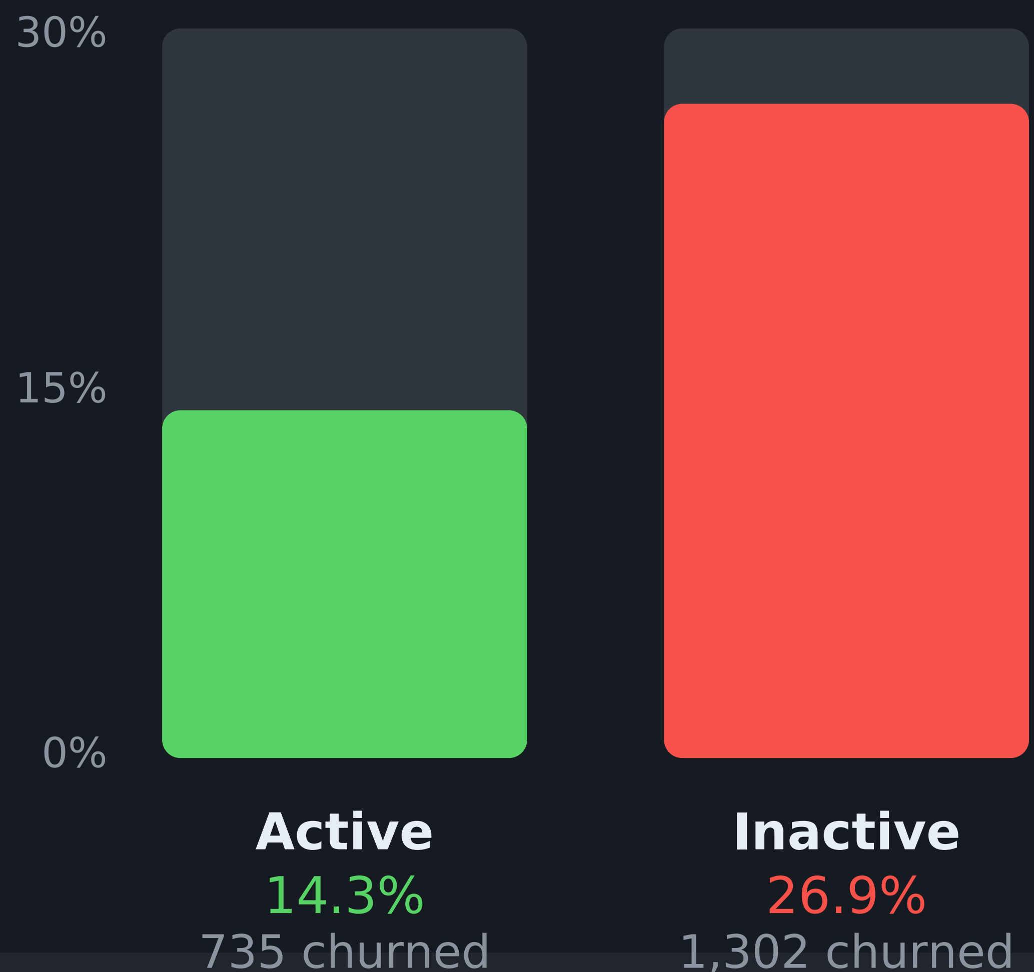
🚨 3-4 products = **massive churn** — over-selling drives exits

CHURN BY CREDIT CARD STATUS



✓ Credit card ownership is **not a churn predictor**

CHURN BY ACTIVE MEMBERSHIP



🔑 Inactive members churn at **88% higher rate** than active

PRODUCTS × ACTIVE MEMBERSHIP — CROSS ANALYSIS

	1 PRODUCT	2 PRODUCTS	3 PRODUCTS	4 PRODUCTS
Active	~20%	~5%	~80%	100%
Inactive	~35%	~10%	~86%	100%

Financial Analysis

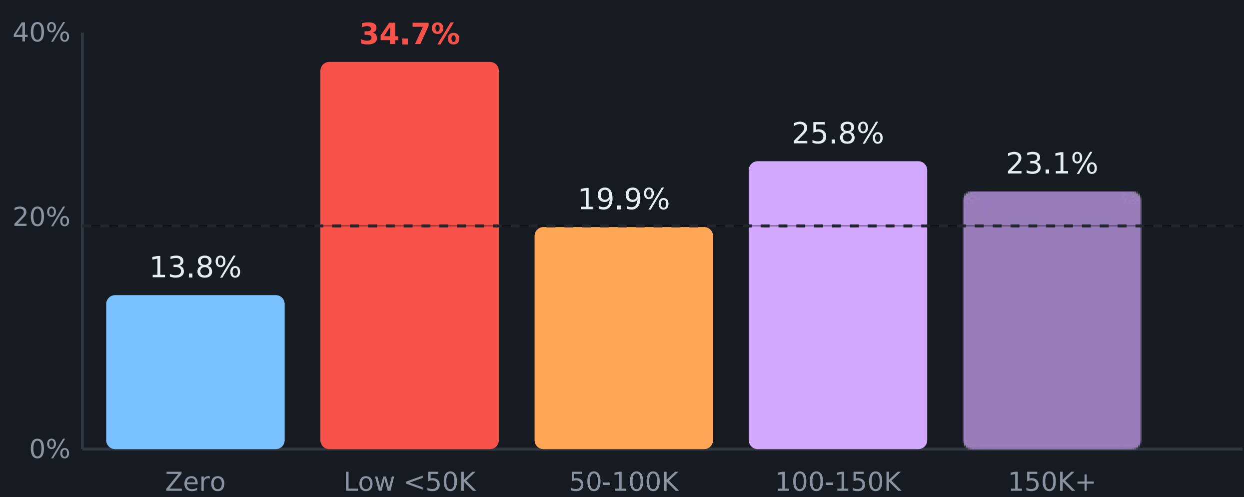
AVG BALANCE (CHURNERS)

$91,109

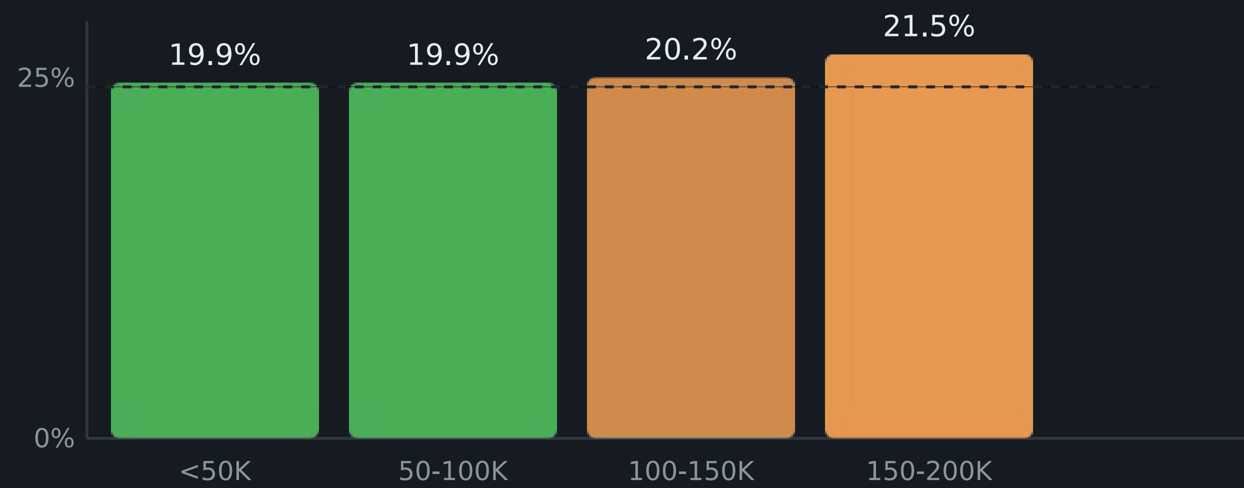
↑ 19% above average

CHURN RATE BY BALANCE SEGMENT



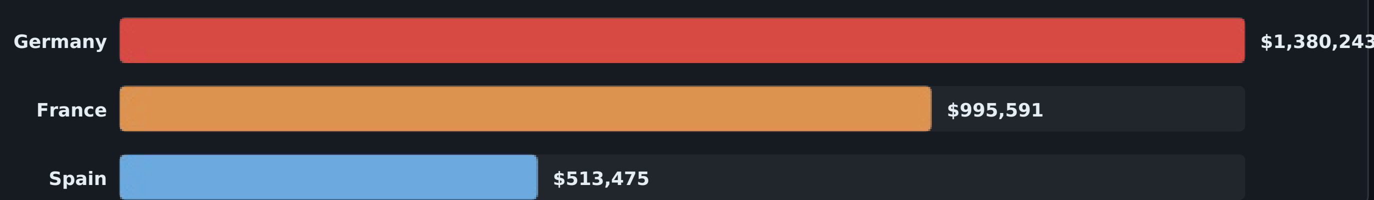
⚠ Low-balance customers (<50K) have **highest churn (34.7%)**

CHURN RATE BY ESTIMATED SALARY BAND



📊 Salary is **near-uniform across churn** — income alone doesn't predict exit

REVENUE AT RISK BY GEOGRAPHY (CHURNED CUSTOMERS ONLY)



Recommendations

Data-driven actions to reduce churn and protect $2.89M in revenue at risk

⚠ 20.4% **Overall churn rate is 36% above industry average (~15%)**

Germany (32.4%), inactive members (26.9%), and customers aged 45-59 (49-57%) represent the highest-priority intervention targets.

REC 01

🇩🇪 Germany Market Deep-Dive

Germany churn (32.4%) is double France and Spain. Investigate service quality, competitive offerings, and local regulatory factors. Deploy dedicated retention team and Germany-specific loyalty incentives.

HIGH IMPACT 814 customers · $1.38M at risk

REC 02

🔄 Inactive Member Re-Engagement

Inactive members churn 88% more than active ones. Launch automated engagement campaigns at 60, 90, and 180-day inactivity thresholds — app push, email, personalised offers. Target the 4,849 inactive members.

HIGH IMPACT 1,302 churned · 26.9% rate

REC 03

👩 Female Customer Retention Program

Women churn at 25.1% vs men at 16.5% — a 52% gap. Survey exited female customers to identify pain points. Consider tailored financial products, advisory services, and community features.

HIGH IMPACT 1,139 churned from female segment

REC 04

🎂 Age 45-59 Retention Strategy

Customers aged 45-59 face peak churn (49-57%). This cohort is approaching retirement planning decisions. Create dedicated "life transition" advisory services, wealth management consultations, and retirement planning tools.

HIGH IMPACT Highest-risk demographic

REC 05

📦 Product Bundle Audit

Customers with 3-4 products churn at 83-100%. This indicates over-selling or poor product fit. Audit sales practices for high-product customers. Implement suitability checks and annual product reviews.

MEDIUM IMPACT 326 customers at extreme risk

REC 06

💳 Churn Prediction Model

Build an ML churn propensity model using age, geography, active status, balance, and products as key features. Deploy real-time scoring in CRM to flag at-risk customers 90 days before likely exit. Target credit score is a weak predictor — deprioritize.

MEDIUM IMPACT Operational efficiency

REC 07

💰 Low-Balance Customer Value Program

Low-balance customers (<$50K) churn at 34.7%. Introduce tiered loyalty programs, fee waivers for active digital engagement, and savings incentive schemes to grow their balances over time.

MEDIUM IMPACT 75 customers · 34.7% rate

REC 08

🏆 Loyal Customer (6–8 yr) Recognition

Customers with 6-8 years tenure show the lowest churn (18.9%). Formalize a loyalty program for this cohort to sustain retention. Offer exclusive rates, dedicated advisors, and milestone rewards.
